Six new proposals were funded and nine proposals received renewed funding in the second year of the Global Food Ventures initiative of Minnesota’s Discovery, Research and Innovation Economy (MnDRIVE). Six new graduate student fellowships also were funded. All of the projects include collaborators from across the U as well as from private industry and non-profits. The initiative aims to promote global food protection and grow consumers’ confidence in the food they buy; to develop new markets for sustainable development and address resource constraints on water and energy; and train the next generation of food scientists.

**FALL 2015 PEOPLE**
- 2,021 Undergraduates
- 704 Graduate Students
- 251 Faculty
- 776 Staff
- 25,000+ Alumni

**$8.6 MILLION**
Total research funds awarded to 12 CFANS projects in 2015 by the state’s environmental and natural resources trust fund.
