**Purpose:**

To recognize significant accomplishments and innovation in achieving and sustaining diversity and inclusion efforts within the College’s personnel, policies, programs, environment, climate, and constituencies.

This award is dedicated to those who are committed to developing the capacity of the college to celebrate, support and realize the value of diversity and inclusion in our community and among our partners.

The College defines diversity as the fact of human difference that makes a difference in how we interact with one another, communities, institutions and ourselves (relative to developing and respecting human potential, creating a supportive, nurturing climate and environment, and acknowledging legal responsibilities to historical inequalities). Because of historical and legal circumstances unique to the history of our nation and to our democracy, we pay particular attention to the areas outlined in the University’s Equal Opportunity Statement. Those areas include: race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status, and sexual orientation.
